Commissioner:

Please amend the inventorship of the above-identified patent application to include Kenneth C. Raines. The named inventors should now be Kevin Woehr and Kenneth C. Raines.

The addition of Kenneth C. Raines as an inventor is necessitated by a discovery of information indicating that he had contributed to the invention as recited by the claims. The inventorship error occurred without deceptive intent by both Kenneth Raines and Kevin Woehr, the previously identified sole-inventor.

The following documents are being submitted herewith in support of the Amendment to Correct Inventorship:

1. Consent of Assignee;
2. Declaration by Named Inventor;
3. Declaration by Added Inventor;

Commissioner:

I, Kevin Woehr, hereby declare that:

1. I make this declaration in support of the amendment under 37 CFR §1.48(a) to change the inventorship of the above-identified patent application.

2. During all times relevant to the conception and reduction to practice of this invention, I work for B. Braun Melsungen AG, the assignee of the above-identified application. During my employment, I had participated in several design projects, including the development of a catheter assembly that incorporates a check valve for stopping fluid backflow, which is the subject of the above-identified patent application.

3. During the development of this invention, I had conversed with Kenneth Raines. In reviewing my notes recently, I came to a realization that Mr. Raines had contributed to aspects of the invention and thereafter promptly notified my Patent Attorney.

4. Having reviewed the claims scope with my Patent Attorney, I believe Mr. Raines should now be identified as a co-inventor of the present application. The original filing without Mr. Raines was therefore made in error without any deceptive intent on my part.

**Appln No. 10/520,325**

5. This declaration in support of the Amendment under 37 CFR §1.48(c) is being diligently made subsequent to discussing this matter with my Patent Attorney.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.

Commissioner:

I, Kenneth C. Raines, hereby declare that:

1. I make this declaration in support of the amendment under 37 CFR §1.48(a) to change the inventorship of the above-identified patent application.

2. During all times relevant to the conception and reduction to practice of this invention, I work for B. Braun Medical Inc., a wholly owned U.S. subsidiary of the assignee of the above-identified patent application. During my employment, I had participated in several design projects, including the development of a catheter assembly that incorporates a check valve for stopping fluid backflow, which is the subject of the above-identified patent application.

3. During the development of this invention, I had conversed with Kevin Woehr, the currently named sole-inventor of the above-referenced patent application.

4. Having reviewed the specification and claims scope with my Patent Attorney, I believe I should be added as a co-inventor of the present application due to my contribution. The original filing without my name was therefore made in error without any deceptive intent on my part.

**Appln No. 10/520,325**

5. This declaration in support of the Amendment under 37 CFR §1.48(c) is being diligently made subsequent to discussing this matter with my Patent Attorney.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
